FAMOS CINE EQUIPMENTSS

HIRES OF FILM EQUIPMENTS

FOUNDER MRS. PUTULH BHAGCHANDKA

In 1988, Mrs. Putulh Bhagchandka founded Famos Cine Equipmentss (FCE3) with a clear vision: to build a world-class equipment infrastructure company for India's evolving film and television industry.

At a time when the technical backbone of filmmaking was overwhelmingly male-dominated, she established FCE3 through resilience, operational discipline and an unwavering commitment to quality. Under her leadership, the company became one of the earliest organized providers of professional cine lighting solutions in India.

Her ability to build long-term industry relationships, identify emerging technologies and create dependable operational systems enabled FCE3 to become a preferred partner for leading production houses, broadcasters and cinematographers.

Today, her legacy continues through a culture built on professionalism, trust, accountability and technical excellence.

FOUNDER HIGHLIGHTS

- Founded FCE3 in 1988
- Pioneer woman entrepreneur in India's production technology sector
- Built one of India's most respected lighting rental ecosystems
- Established long-standing partnerships across Film, Television, OTT and Advertising
- Created a culture centered around reliability and client-first execution

MISSION & VISION

Core Pillars

- Innovation-Led Growth
- Operational Reliability
- Sustainable Production Practices
- Technical Excellence
- Long-Term Industry Partnerships

MISSION

To empower filmmakers, broadcasters, OTT platforms and content creators with reliable, innovative and sustainable lighting solutions that enhance production quality while optimizing efficiency, safety and operational performance.

VISION

To be India's most advanced and trusted production technology partner, driving the future of cinematic lighting through innovation, sustainability and technical excellence.

PEOPLE BEHIND THE PERFORMANCE

THE FCE3 TECHNICAL TEAM

Technology is only as effective as the people operating it.

Our crews, gaffers, best boys and lighting technicians are trained to deliver consistent execution under demanding production environments.

OPERATING PHILOSOPHY

"NO ISSUE ON SET"

Every decision is guided by minimizing disruption and maximizing production efficiency.
